PROFESSIONAL SUMMARY

Software Developer and Technical Consultant with 6+ years of experience in software development, technical consulting and enterprise solutions. Specialized in Oracle NetSuite, SuiteScript 2.x, REST/SOAP integrations, process automation and ERP customization. Experienced with JavaScript, SQL, HTML/CSS, React and Angular, working with clients from requirements analysis and solution design through testing, deployment, support and optimization.

PROFESSIONAL EXPERIENCE

Oracle NetSuite

Senior Principal Technical Consultant | Sep 2023 - Sep 2026 | Remote

- Designed, developed and maintained customized Oracle NetSuite solutions based on business requirements.
- Developed SuiteScript 2.x solutions using User Event, Client Script, Suitelet, Scheduled Script and Map/Reduce.
- Built system integrations and process automations using SuiteTalk REST/SOAP, Saved Searches and Search APIs.
- Worked with custom records, custom fields, workflows and transaction customizations.
- Created and maintained Advanced PDF/HTML templates using FreeMarker.
- Performed requirements analysis, troubleshooting, incident resolution and optimization of existing scripts and customizations.
- Worked directly with clients throughout requirements gathering, technical design, development, testing and production deployment.

Tata Consultancy Services (TCS)

Full Stack Developer - PwC Web Team | Jul 2020 - Aug 2022 | Remote

- Developed responsive web interfaces and reusable components using JavaScript, HTML, CSS, Angular and jQuery.
- Implemented frontend functionality, maintained web applications and resolved technical issues.
- Managed content through CMS platforms and developed internal scripts and automations for Google Workspace.
- Collaborated with multidisciplinary software development teams.

Tata Consultancy Services (TCS)

Compliance Resource Center - PwC | Apr 2019 - Jul 2020 | Remote

- Provided technical support for users and business applications, diagnosing and resolving incidents.
